OK. Gary is stranded in OKC at the moment, so we probably won't meet about Pavillion until this afternoon (at the earliest).

Dave – I will be out at Drs appt part of this AM, in case meetings are called.

I do have some input and comments on this regarding the QA section and the potential modeling work.

Subject: straw proposal for Comment Response Summary process

Gary and Dave, we shared this straw proposal with Cindy when she was out here in the region a couple of weeks ago. It was developed in the interest of having ORD and the Region be on the same page with respect to time frames, expectations, process, etc as we work together to develop the comment responses. Per our conversation with Cindy, I am sending it to you and would like your input on it. Cindy was going to share it with ORD senior management as well- any feedback to share on that front?
